

Exporting Digital Data from Climate FieldView

Exporting Digital Data from Climate FieldView

Log In and Navigate to Data Section

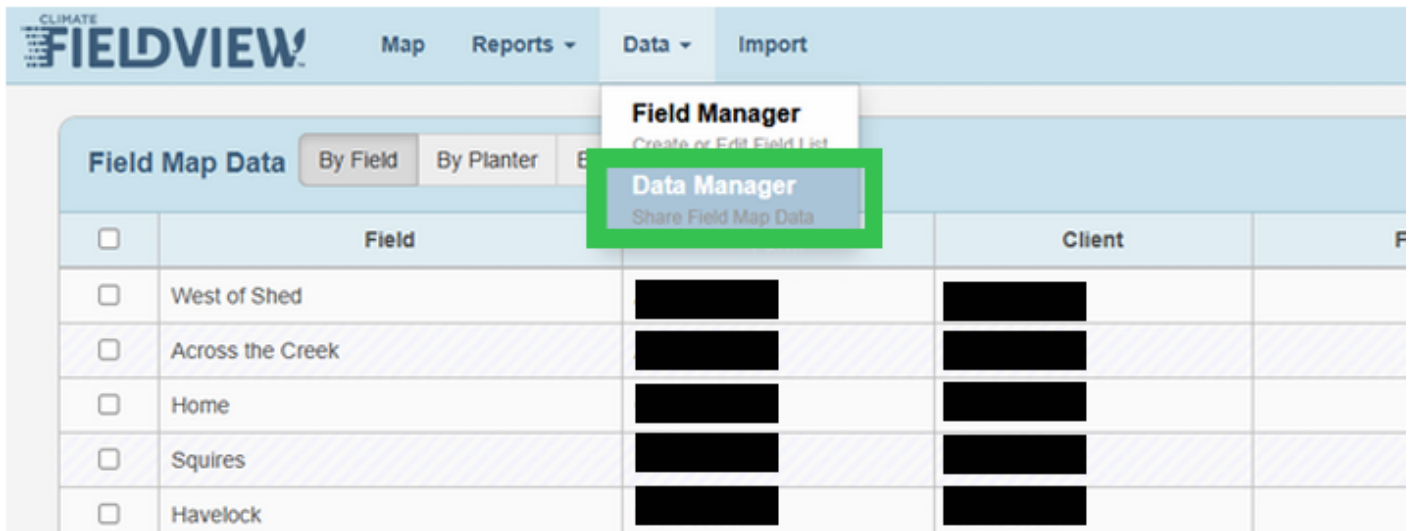

- Sign in to <https://fieldviewplus.com/>

Note: Do not confuse fieldviewplus.com and climate.com. They are different and allow for different types of data export.

The image shows the login interface for Climate FieldView. At the top, the logo "CLIMATE FIELDVIEW" is displayed in a blue header bar. Below the logo is a login form with two input fields: "Username" and "Password". The "Username" field contains the text "data@intent.ag". The "Password" field is masked with eight dots. To the right of the password field is a "Login" button. Below the password field, there is a link that says "Forgot Password?".

CLIMATE FIELDVIEW	
Username	data@intent.ag
Password	••••••••
Forgot Password?	
<button>Login</button>	

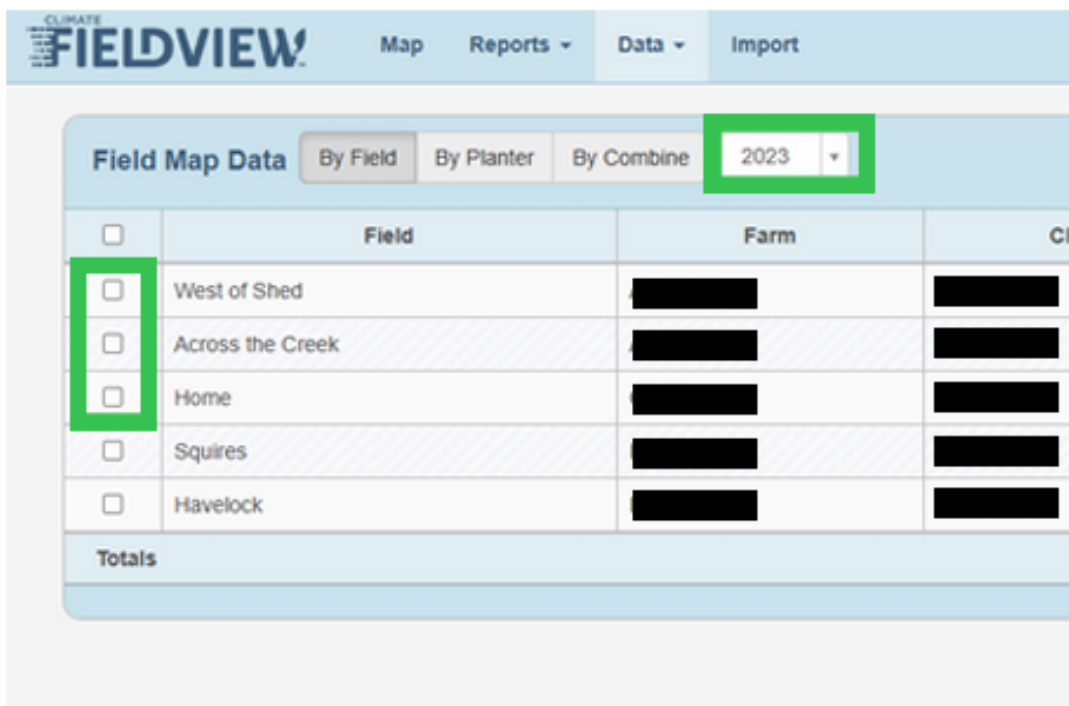

- Select the **Data** tab in the top navigation bar. This is where all field data is stored. Choose the **Data Manager** option in the dropdown list.

Select the Desired Field

- To export data, check the box next to the desired field name
- Be sure that the year is properly filtered

Note: If your field does not show up on the list, that means there is no associated data for the filtered year.

Export and Download the Data

- Locate the **Actions** dropdown menu near the top right of the data table
- Select the **Export DAT Files** option

		Actions▼
es Harvested		<div> Share Fields Export DAT Files Export Field Pins </div>
	73.6	4
	153.2	10/15/2024
	86.6	10/02/2024
	56.8	09/29/2024

- Once the export is complete, a download link will appear. Click the link to download the file to your computer
